

**Day1 November 12 (Fri)**

Time (KST)	Room 1 (ORCHID 1)	Room 2 (ORCHID 2)	Room 3 (CAMELLIA)	Room 4 (IRIS)
07:30~08:30	<b>Craniofacial 1</b> Congenital Anomalies	<b>Basic Research 1</b> Tele-Plastic Surgery: AI and Big Data	<b>Robot Surgery 1</b> Robotic Microsurgery	<b>Free Paper 1</b> Hand and Upper Limb Reconstruction
08:30~08:40	Break			
08:40~09:40	<b>Craniofacial 2</b> Microsurgical Reconstruction of the Head and Neck	<b>Basic Research 2</b> Basic Research in Lymphedema	<b>Robot Surgery 2</b> Robotic Application in Breast Surgery	<b>Hand 1</b> How to Treat Traumatic Nerve Injury? Recent Advances
09:40~09:50	Break			
09:50~10:50	<b>Craniofacial 3</b> Ear Reconstruction	<b>Basic Research 3</b> Keloid & Hypertrophic Scar: Have We Completely Overcome It?	<b>Robot Surgery 3</b> Robotic Flap Harvest: Technical Comparison	<b>Hand 2</b> Robotic/Cybernetic Prosthesis - The Future Today
10:50~11:00	Break			
11:00~12:00	<b>Keynote Lecture</b> Joseph E. Losee (University of Pittsburgh School of Medicine, USA)	<b>Basic Research 4</b>	<b>Peripheral Nerve (Pain and Migraine)</b>	<b>Hand 3</b> Functional Surgery for the Malignant Melanoma of the Hand: Is it Safe?
12:00~13:00	Lunch			
13:00~14:00	<b>Craniofacial 4</b> CMF Reconstruction	<b>Basic Research 5</b> ASC: What's New Recently	<b>Industrial Session</b> [L&C Bio]	<b>Lymphedema 1</b> New Concepts for Managing Lymphedema
14:00~15:00	<b>Retirement Lecture</b> Hee Chang Ahn (Hanyang Univ.)	<b>Basic Research 6</b> The Current and Future Challenges of Tissue Engineering	<b>Perforator 1</b> Lower Extremity Session: How Can We Decrease Operative Duration During Perforator Flap? (Personal Tips)	<b>Lymphedema 2</b> Recent Advances on LN Transfer
15:00~15:10	Break			
15:10~16:10	<b>Craniofacial 5</b> Digitalization of CMF Surgery	<b>Korean Wound Management Society 1</b> Updated Research in Wound Management	<b>Perforator 2</b> Tips for Enhancing Outcomes in Perforator Flap Surgery	<b>Lymphedema 3</b> Refining LVA
16:10~17:10	<b>Craniofacial 6</b> Fundamental Research of CMF Surgery	<b>Korean Wound Management Society 2</b> Special Considerations for Management of Diabetic Foot	<b>Free Paper 2</b> Basic Research (1)	<b>Free Paper 4</b> Lymphedema
17:10~17:20	Break			
17:20~18:20	<b>Craniofacial Reconstruction Surgery</b> Aesthetic Facial Reconstruction	<b>Abdominal Wall Reconstruction</b>	<b>Free Paper 3</b> Basic Research (2)	
Day 1 Closing				

## Day2 November 13 (Sat)

Time (KST)	Room 1 (ORCHID 1)	Room 2 (ORCHID 2)	Room 3 (CAMELLIA)	Room 4 (IRIS)
07:30~08:30	<b>Breast 1</b> Does Reconstruction Impact Post-Mastectomy Radiation? Or Does PMRT Impact Reconstruction?	<b>Rhinoplasty 1</b> Practical Aesthetic and Functional Evaluation for Asian Rhinoplasty	<b>Facial Trauma 1</b> New Technology in CMF Surgery	<b>Free Paper 5</b> Pediatric and Craniofacial Reconstruction
08:30~08:40	Break			
08:40~09:40	<b>Breast 2</b> Evolutions of Nipple Sparing Mastectomy and Reconstruction	<b>Rhinoplasty 2</b> Deviated Nose Correction	<b>Facial Trauma 2</b> Simulation & PSI in CMF	<b>Free Paper 6</b> Lower Limb Reconstruction
09:40~09:50	Break			
09:50~10:50	<b>Songbaek Lecture</b> Peter G. Cordeiro (Memorial Sloan Kettering Cancer Center, USA)	<b>Rhinoplasty 3</b> Technical Strategies for Balanced Harmony in Asian Rhinoplasty	<b>Facial Trauma 3</b> CMF (Cranio-Maxillo-Facial) Surgeons in Trauma Center	<b>Facial Nerve 1</b> Periocular Management in Facial Palsy Patients
10:50~11:00	Break			
11:00~12:00	<b>Breast 3</b> Controversies in Breast Reconstruction	<b>Rhinoplasty 4</b> Drawbacks and Solutions for Better Long Term Result in Rhinoplasty	<b>Facial Trauma 4</b> CMF Giant in History	<b>Facial Nerve 2</b> Adjunctive Treatment Modalities for Paralyzed Face
12:00~13:00	Lunch / General Meeting of KSPRS			
13:00~14:00	<b>Aesthetic Breast 1</b> Dueling Perspectives in Transaxillary Endoscopic Breast Augmentation	<b>Rhinoplasty 5</b> New Application of 3D Technology in Rhinoplasty	<b>Facial Trauma 5</b> Shoulder's of Orbital Giants Surgeon	<b>Fat and Stem Cells 1</b> SVF & Fat Grafting
14:00~15:00	<b>Aesthetic Breast 2</b> Revision of the Unsatisfactory Breast Augmentation	<b>Rhinoplasty 6</b> Reconstructive Rhinoplasty – Aesthetic and Functional Aspects	<b>Bone Contouring 1</b> Comparison of Personal Methods to Achieve the Best Outcomes in Contemporary Malarplasty	<b>Fat and Stem Cells 2</b> SVF Related Materials
15:00~15:10	Break			
15:10~16:10	<b>Aesthetic Breast 3</b>	<b>Invited Lecture(Sponsored by Hallym)</b> Wolfgang Gubisch (Vinzenz von Paul Kliniken gGmbH, Germany)	<b>Bone Contouring 2</b> Comparison of Personal Methods to Achieve the Best Outcomes in Contemporary	<b>Fat and Stem Cells 3</b> Cell Culture in Clinical Practice
16:10~17:10	<b>Aesthetic Breast 4</b> Hot Topics	<b>Rhinoplasty 7</b> My Personal Experience of Devastating Nose (Correction and Prevention)	<b>Bone Contouring 3</b> Comparison of Personal Methods to Achieve the Ideal Aesthetics in Contemporary Orthognathic Surgery	<b>Fat and Stem Cells 4</b> Clinically Oriented Cell Banking
17:10~17:20	Break			
17:20~18:20	<b>Aesthetic Breast 5</b> Secret and Pearls for Gynecomastia Surgery	<b>Forehead Surgery</b>	<b>Free Paper 7</b> Head and Neck Reconstruction	<b>Free Paper 8</b> Breast and Body Reconstruction (1)
Day 2 Closing				

**· Day3 November 14 (Sun)**

Time (KST)	Room 1 (ORCHID 1)	Room 2 (ORCHID 2)	Room 3 (CAMELLIA)	Room 4 (IRIS)
07:30~08:30	<b>Asian Blepharoplasty Forum 1</b> Art of Anatomy for Eyelid Surgery	<b>Scar Management</b>	<b>Vascularized Composite Allotransplantation 1</b> Hand Transplantation: Longterm Outcomes and Immunomodulatory Protocol for Hand Transplantation	<b>Free Paper 9</b> Breast and Body Reconstruction (2)
08:30~08:40	Break			
08:40~09:40	<b>Asian Blepharoplasty Forum 2</b> Immediate and Long-Term Results for Minimal Invasive Surgery	<b>Botox, Filler &amp; Thread 1</b> Anatomy, Safe Technique and Management of Side Effect for Injectable Filler	<b>Vascularized Composite Allotransplantation 2</b> Face Transplantation	<b>LGBTQ Medicine</b>
09:40~09:50	Break			
09:50~10:50	<b>Asian Blepharoplasty Forum 3</b> Vivid Web Live	<b>Botox, Filler &amp; Thread 2</b> Patients Selection and Different Ethnicities for Injectable Filler	<b>Laser 1</b> Complications of Laser & EBDs	<b>Gender Affirming Surgery</b>
10:50~11:00	Break			
11:00~12:00	<b>Asian Blepharoplasty Forum 4</b> Innovative Surgical Methods for Changing Eye Shape	<b>Botox, Filler &amp; Thread 3</b> Biostimulating, Skin Rejuvenation and Tightening Using Injectable Filler	<b>Laser 2</b> Reviews of Scar Treatments	<b>Industrial Session</b> [L&C Bio]
12:00~13:00	Luncheon Symposium			
13:00~14:00	<b>Asian Blepharoplasty Forum 5</b> Various Surgical Approach for Aging Eyelid	<b>Botox, Filler &amp; Thread 4</b> New Techniques of Toxin & Filler	<b>Hair 1</b> Male Hair Transplant	<b>Industrial Session</b> [MOTIVA]
14:00~15:00	<b>Asian Blepharoplasty Forum 6</b> Art of Canthal Surgery for Lengthening of Eye	<b>Antiaging 1</b> Midcheek Lift	<b>Hair 2</b> Female Hairline Correction	<b>Industrial Session</b>
15:00~15:10	Break			
15:10~16:10	<b>Asian Blepharoplasty Forum 7</b> Coping with Problems After Incisional Ptosis Surgery	<b>Antiaging 2</b> Fundamentals in Face Lift	<b>보험 세션. 신의료기술 (KOR)</b>	<b>Industrial Session</b>
16:10~17:10	<b>Asian Blepharoplasty Forum 8</b> Primary & Revisional Lower Blepharoplasty	<b>Video Session</b> Endoscopic Forehead / Brow Lift	<b>필수평점 강의 1 (KOR)</b>	<b>Free Paper 10</b> Aesthetic
17:10~17:20	Break			
17:20~18:20	<b>Asian Blepharoplasty Forum 9</b> Asian Eyelid Surgery & Peri-Orbital Rejuvenation	<b>MIPS</b>	<b>필수평점 강의 2 (KOR)</b>	<b>Free Paper 11</b> Other Plastic Surgery
Day 3 Closing
